Devon,

I've scoured through everything I have access to, and can't find any survey info. I did find that in 1993 a leaking underground fuel tank was removed and there was contaminated soils remediation. And, a well was sealed in 1996.

That's all I know,

Mark Edevold

Subject: Washburn Lake Office Survey Info

Hey Mark,

I was contacted by Joe Fleisher, a Land Surveyor with the DNR out of Brainerd, he was wondering if there was any survey information out there regarding the Washburn Lake Office? I was going to look around the office, but I am pretty sure we don't have anything here. I didn't know if you would have anything in your documents?

Thanks,
Devon
